

You are invited!

Come spend four fun filled days sculpting with award winning artist Pat Moulton. Whether you are a beginner or an accomplished artist, Pat's experience and expertise will help you further your quest of developing your sculpting techniques.

In this class you will learn to sculpt a 19" baby in polymer clay. This doll will have a polymer clay head and limbs with a soft cloth body. Everything you need to complete this doll will be included in this class. All you need bring is your love of sculpting!

Pat has graciously agreed to offer this class in my studio in Lakeland, FL, which is conveniently located about an hour from Tampa or Orlando. This class will begin on Monday Feb 2nd and run until Thurs Feb 5th. Class times will be from 9am to 5pm each day. It will begin immediately following IDEX in Orlando, which we felt would benefit those attending or exhibiting at IDEX. By offering it at this time, it will help save travel time and expenses. Arrival time should be on Sunday so we can get the classes started early on Monday. Being that it will be Super Bowl Sunday, we will be having a pizza party to help get acquainted and cheer on your favorite team!!

In the many years I have been creating dolls and taking classes from various artists, the bonds formed with other artists in these classes have become some of my most precious friendships. That is one reason we will be offering all meals to be included in the cost of the class, to allow more time to create and visit with fellow artist as well as save time and money traveling to restaurants to eat.

Transportation to and from the hotel each day will be provided. We will also offer transportation to and from the airport, providing we can coordinate travel times. When not possible, shuttle info will be provided. We will work hard to try to accommodate all schedules to further help with avoiding the cost of having to use a rental car or taxi/shuttle service.

Regardless of what your doll making experience, Pat's love of sculpting dolls and her gracious spirit will inspire you to create your own beautiful babies.

Pat Moulton

Award Winning Artist

A little about myself...

I am a Mother of three, two girls and one boy. I also am grandmother of four, three boys and one girl.

My husband, Garel, and my children have given me the best support and encouragement to follow my dream.

As an artist it has been a long and wonderful journey starting from a young age. The interest was always in the arts starting with drawing, oil painting, making bears, porcelain dolls, and finally sculpting. That is where I found my passion...

I have been sculpting for 28 years, but it was only eight years ago that I started to sculpt babies. From then on it has been what I love the best.

I wanted to share the passion I have experienced from my love of sculpting with others, and I have done that many ways. One is by writing articles on how to sculpt and another with my new DVD on how to sculpt a baby. The DVD project was a fun one to do and I have been very happy with the overwhelming response.
